Villa 2340 Saint-Paul-de-Vence

SAINT PAUL OF VENCE. Chemin de Léouvé, near Cagnes sur mer, this neo-Provençal villa was built in 1984. It benefits from Geothermal technology which gives it great comfort. It is set on a garden of more than 3,500m² with garages for 3 cars with workshop and spa and develops more than 210m² on two levels offering a beautiful living space with fireplace and veranda, 3 bedrooms including one en suite on one level and an independent apartment. A laundry-boiler room and two cellars contribute to well-being. This villa impressed us with the quality of its construction and the originality of the distribution of volumes. Wooded environment, not overlooked.
